UN Charter (preamble)

“WE THE PEOPLES OF THE UNITED NATIONS DETERMINED

to promote social progress and better standards of life in large freedom,

AND FOR THESE ENDS

To employ international machinery for the promotion of the economic and social advancement of all peoples.”

Three Apparent Trends of International Development Cooperation

- ❖ “Sustainable” Development
- ❖ South-South Cooperation
- ❖ An Institutional Paradigm for Global Partnership

What would be the Role of the Republic of Korea?

Four Suggestions for Korea to Consider

1. The development policy should be tailored to the needs of the recipient countries.
2. Not only the aid support but also the recipient country's "sustainable" capacity building
3. to establish an effective channel of partnership with the developing countries.
4. The utilization of UN organizations

The Post-MDG Process

- ✓ Korea partake more actively in the process and make itself more visible.
- ✓ Korea be more open and ready in expanding its financial contributions / sharing its development knowledge and experiences.

★ Development Cooperation is not a Zero-sum game at all, **IT IS POSITIVE-SUM GAME!**
